

COVID-19 Outbreak

Manage an outbreak in NDSL sites

All staff share the responsibility for keeping residents safe. Complete the following actions when a COVID-19 outbreak is confirmed. This checklist provides general measures only – refer to the corresponding section in the [Guide for Outbreak Prevention & Control in Non-Designated Supportive Living Sites](#) for detailed recommendations. When applicable, follow site-specific policies.

Infection Prevention Control measures	Guide Section
<input type="checkbox"/> Recommend confirmed and symptomatic residents remain in their room and away from others.	4.1
<input type="checkbox"/> Implement IPC recommendations in Figure 2 : <ul style="list-style-type: none">Place Modified Respiratory precaution signage outside room of confirmed and symptomatic residents as per facility policy.Wear recommended PPE (including mask/respirators, gloves, gown and eye protection).Conduct an Infection Prevention and Control Risk Assessment (IPCRA) prior to every resident interaction.Perform hand hygiene and practice respiratory etiquette.	4.1
<input type="checkbox"/> Use continuous masking and eye protection for the duration of the outbreak.	5.1
Administrative measures	Guide Section
<input type="checkbox"/> Notify appropriate HCW/staff and departments within the facility/unit.	5.2
<input type="checkbox"/> Place outbreak signage at the entrance of the facility/unit.	5.2
<input type="checkbox"/> Report daily using the online Facility CDC Outbreak Daily Report Portal (and to IPC as per zone process).	5.2
<input type="checkbox"/> Assign HCW/staff to care for asymptomatic residents before symptomatic residents.	4.2
<input type="checkbox"/> Cohort HCW/staff to work only in affected or only in unaffected areas.	4.2
<input type="checkbox"/> Inform residents of the outbreak.	5.2
<input type="checkbox"/> Alert transport staff and the receiving site to use additional precautions if a symptomatic resident is attending another site for an appointment.	5.6

<input type="checkbox"/> Implement recommended COVID-19 outpatient treatment under the direction of the resident's most responsible health care practitioner.	6.2
Resident restrictions	Guide Section
<input type="checkbox"/> Recommend that confirmed and symptomatic residents remain in their rooms with Modified Respiratory precautions until: <ul style="list-style-type: none"> • symptoms have improved; AND • the resident is feeling well enough to resume normal activities; AND • the resident has been free of fever for 24 hours without the use of fever reducing medication. 	6.3
<input type="checkbox"/> Recommend resident wear a mask for a total of 10 days from the onset of symptoms (even if the symptoms have resolved or improved) when in indoor settings with other individuals.	6.3
Restrictions on affected facility/units	Guide Section
<input type="checkbox"/> Implement restrictions for the facility/unit as directed by the AHS Public Health Outbreak Team.	6.4
<input type="checkbox"/> Use Risk Assessment Worksheet and Risk Assessment Matrix for admissions/transfers/discharges (as per zone process).	5.4
Group/social activities and other events	Guide Section
<input type="checkbox"/> Allow asymptomatic residents to take part in daily activities.	5.7
<input type="checkbox"/> Follow the AHS Public Health Outbreak Team direction on whether to continue with group activities.	5.7
<input type="checkbox"/> Use outbreak measures such as physical distancing, masking and hand hygiene for low-risk group activities that may continue.	5.7
<input type="checkbox"/> Postpone high-risk group activities (such as singing and bus outings)	5.7
<input type="checkbox"/> Use precautions during personal services such as hairstyling for asymptomatic residents (mask) and the provider (mask and eye protection).	6.7
Nourishment areas / sharing of food	Guide Section
<input type="checkbox"/> Deliver meals to confirmed or symptomatic residents in their rooms.	5.8
<input type="checkbox"/> Use single serve items and discontinue family style dining if recommended by the AHS Public Health Outbreak Team.	5.8
Visitors and Designated Family / Support Persons (DFSPs)	Guide Section
<input type="checkbox"/> Encourage visitors to postpone visiting.	5.10

<input type="checkbox"/> Recommend visitors/DFSPs wear a mask while in common areas at the facility.	5.1
<input type="checkbox"/> Recommend symptomatic visitors/DFSP delay visit.	4.10
<input type="checkbox"/> Advise visitors/DFSPs of the importance of hand hygiene.	4.10
<input type="checkbox"/> Advise visitors/DFSPs of the potential risk of exposure to a symptomatic resident and demonstrate the use additional PPE.	4.10
HCW/staff outbreak control measures	Guide Section
<input type="checkbox"/> Advise symptomatic HCW/staff to report illness to manager/designate and to not attend work.	4.11
<input type="checkbox"/> Advise symptomatic HCW/staff to follow recommendations in Table C for COVID-19 at-home Rapid Antigen Testing.	4.11
<input type="checkbox"/> Advise HCW/staff who develop symptoms at work to put on a mask, inform manager/designate and leave the workplace as soon as possible.	4.11
<input type="checkbox"/> Advise HCW/staff who are a close contact of a confirmed COVID-19 case to monitor for symptoms for seven days from the last date of contact.	6.11
Specimen collection	Guide Section
<input type="checkbox"/> Follow the AHS Public Health Outbreak Team specimen collection recommendations for symptomatic residents. Specific direction will be provided on the number and type of specimens to collect. <ul style="list-style-type: none"> Specimen collection recommendations are based on site capacity and availability for specimen collection. 	4.12
<input type="checkbox"/> Ensure proper specimen collection, handling, and labelling (including EI#) when specimen collection is recommended by the AHS Public Health Outbreak Team.	4.12
<input type="checkbox"/> Consult with the AHS Public Health Outbreak Team if a resident has previously tested positive for COVID-19 in the past 90 days.	6.12
Enhanced environmental cleaning and disinfection	Guide Section
<input type="checkbox"/> Perform cleaning using PPE and recommended cleaning products.	4.13
<input type="checkbox"/> Follow recommendations in Principles for Environmental Cleaning and Disinfection .	4.13
<input type="checkbox"/> Enhance cleaning and disinfection frequency. <ul style="list-style-type: none"> Clean and disinfect low touch surfaces at least once per day and high touch areas at least twice per day. Immediately clean and disinfect visibly dirty surfaces. 	4.13

Conduct a post isolation/additional precautions cleaning and disinfection when the outbreak is closed.
